

Audrey Tyrka - “Feedback from #meettheartist guests:

Thank you for sharing your work. It reminded me to slow down and look for the everyday natural beauty in the world.

The artwork was so impressive. I have never seen this reflection photography before. It has inspired me to give it a try. I was struck by Audrey’s sheer joy in her art ... that it was meditative and healing. It was nice to see that side of her.

Love the freedom and honesty, thank you.

I like the vibrant colors of the paintings and photos.

Very inventive and imaginative. Audrey proves that serendipity can produce art in the right hands (with a probing eye) .

We will see things differently after having seen Audrey’s photography. Interesting, audacious, fun; love the paintings’ vibrant color!

A concise discussion of a seemingly random process made the work make logical sense and became more enjoyable to view. Outstanding presentation!

Love how Audrey sees the “extra”ordinary in the ordinary.

I was amazed at Audrey’s powers of observation and attention to see things in and through the lens of something else and to find the meaning (often after the fact, apparently) in the synchronicity...

Audrey embodies the DIY ethos and inspires one to “jump in” and Do Art !

Capturing the process of mindfulness via art was very innovative. Mindfulness does not have to be a static power.

From one mindful photographer to another, nicely done.

I learned again how easily science and art merge.

The talent of the artist is so extraordinary and brilliant. Such a pleasure to witness such great work.

I will look at reflections differently from now on.

Noted her ability to have such an open mindful process.

Loved everything - articulate, warm, engaged, extraordinary. Kudos!
